CONTRACT NEGOTIATIONS RAVENSWOOD/TRANSCANADA HIGHLIGHTS

President Farrell and his negotiating team thank our Members at Ravenswood for their overwhelming support and solidarity. The most significant provisions of the agreement are:

- Duration: Four (4) years
- General Increase: 3 ½ % per year - over 15% compounded for life of contract.
- Out of pocket medical – Small weekly increase
- Vacations: Vacation improvements for large percentage of our members, including a 6th week at 30 years.

You will be receiving a comprehensive summary of the contract shortly along with your ballot. Please read all the information carefully before casting your vote. TransCanada had a host of takeaways and draconian sick time changes that we rejected and which will **not** be in our contract. Most of the company demands were not removed until just before the midnight deadline. The company continued to sight the Orange and Rockland contract and others throughout the country to support their paltry general increase proposal. Thank you again for your unwavering support. The successful outcome of these negotiations could not have occurred without your support.
