

LOCAL 1-2 UPDATE

ENTERGY

WEDNESDAY JANUARY 20, 2010

At 8:00, pm a tentative agreement was reached between Local 1-2, Utility Workers Union of America, which represents the workers at Indian Point Nuclear Energy Center and Entergy Company, the owner and operator of the plant.

Local 1-2 President Harry J. Farrell said “The agreement is fair and equitable to all stakeholders: workers, shareholders and especially the people of Westchester County and New York City. This was one of the most difficult negotiations we have been involved in but we now have an agreement that we are proud to take back to our members for their ratification.”
