FOR IMMEDIATE RELEASE

72 HOUR COOLING OFF PERIOD IN CON EDISON/UNION NEGOTIATIONS

Saturday night, shortly before midnight, Governor David Patterson called the parties to ask them to agree to a 72 hour cooling off period. The Union agreed to the Governor's request and, after some delay, Con Edison did as well. The parties were still far apart as the clock struck midnight; and will meet again shortly to see if the Company will move off its draconian proposal. The Union thanks Governor Patterson for his interest in the welfare of the Con Edison workforce and the good people of New York City and Westchester.
