

GROUND ZERO–DANGEROUS TOXINS CLASS ACTION

Time is running out to file actions for WTC related injuries! If you, or anyone you know, are interested in learning more about the WTC litigation and preserving your legal rights, please contact our office toll free at 1-800-692-3717 and we will assist you.

It is widely reported that **many who worked or volunteered at Ground Zero** in the days and months following the attacks **were exposed to potentially dangerous toxins.**

Thousands now suffer from various illnesses, including coughs, shortness of breath, asthma, other respiratory ailments, skin problems, sarcoid, kidney or heart problems, tumors and even cancer.

Our law firm, Brecher, Fishman, Pasternack, Popish, Heller, Reiff & Walsh, P.C., has joined in this matter with the law firm of Worby, Groner, Edelman & Napoli Bern LLP which has filed a class action, AND individual lawsuits on behalf of many affected rescue and recovery workers.

If you are responding to the recent mailing from Professional Evaluation Medical Group or have questions of your own, please contact us as soon as possible.
